Comments Report

4. Learning Environment and Support

4.1) Please comment on the learning environment that impacted your experience in this module (for example: lecture theatre equipment, the Hub, rooms and facilities, support staff, etc.)

- Generally satisfactory
- Good (2 Counts)
- great support staff, slides are amazing
- no comments to be made really
- Staff and facilities were very good
- The lecture theatre equipment did not negatively impact my experience in this module.

5. Overall Feedback (Your responses are very valuable to instructors as these often highlight areas of excellence as well as of improvement).

5.1) What did you like most about this module?

- Dr De Preux is a living legend. She is an absolutely fantastic lecturer, regularly seeking feedback and offering opportunities for clarity and questions to be asked. I loved how she would regularly recap concepts covered in previous lectures as I found the maths elements of the course challenging, but this style of teaching made it far more accessible. Dr De Preux is excellent at explaining abstract concepts, using multiple styles of explanation to meet the various learning styles in the room. I think Dr De Preux unequivocally deserves recognition for how fantastic of a teacher she is, and other instructors could certainly learn a lot from her.
- Engaging delivery of lecture
- Good slides and always very responsive and patient with questions
- Laure is an amazing lecturer and will make sure you understand the topics
- Laure was really helpful and was always available to help answer any questions relating to the lecture content and the coursework.
- Lots of repetition. Laure was very willing to answer questions in a helpful manner.
- Really fantastic lecturer. I found the recaps at the start of every lecture extremely helpful
- Really logical lecture order in terms of project
- Rigorous module
- The lecturer was highly responsive to questions and very generous with her time, offering to help students extensively.
- The topics
- this is the best module by FAR!! Laure is one of the best lecturers ever!!

5.2) What would you most like to improve in this module?

- I can't think of anything. It is a challenging module no question but Dr De Preux has made it my favourite.
- I think explanations for graphs were sometimes quite confusing and overlooked - I know that I have had to ask my peers several times for help understanding these topics. Also, external revision links and sources could be provided as economics is a very new topic for many of us, so this could be provided to help us better grasp the fundamentals.
- Maybe a bit more guidance at the start of the course on what the coursework consists of and what information is needed in the RCT, as we had to start again with new papers a couple of times as we didn't realise what we information was required from our RCT for the coursework.
- Maybe signposting some resources for further understanding - sometimes the content is confusing only because there are so many graphs that look similar, so it can be hard to remember everything (at least for me)
- N/A
- NA
- Nothing

- nothing - laure is amazing and the content is so interesting!! thank you sm
- Tutorials or more relevance or guidance on exam content as well as coursework
